11/7/16 ★ [reply] [dropdown]

Here are my new SAT scores, over all from my first SAT my math jumped 130 points. Thank you so much for all of your help! When i super score this score with my reading from the last one I have a score that is competitive. All my colleges super score too which is great. Thank you so much for helping me through math, which will also help when I take the math class next semester. Thank you

Hey Doug,

This is [redacted]. You tutored me in pre-cal in the fall. I just wanted to let you know that I got into UGA thanks to your help. I was able to bring up my SAT scores enough to qualify. Thank you so much. Also because you exposed and taught me quite a bit of pre-cal in advance I was able to end with a 101 in pre-cal. Thank you so much. Just wanted to give you this update.
